

PLC AND SCADA SYSTEMS

PLC and SCADA systems play a vital role in the modern industrial automation environment. From an individual PLC controlling a discrete plant item to a site wide integrated PLC and SCADA system, **PROVECTA** are able offer the personnel and experience to provide a total engineering solution.

PROVECTA is an engineering consultancy specializing in automation and control systems. **PROVECTA** is not aligned to any specific control system vendor and as such, we are able provide independent and objective advice to provide the best solution to resolve process control problems. Whilst we are vendor independent, **PROVECTA** is a certified system integrator with Schneider Electric.

Listed below are the various PLC and SCADA systems with which **PROVECTA** staff have broad experience.

- Modicon QUANTUM PLC's
- Allen Bradley PLC's & SLC's
- Siemens PLC's
- TOSHIBA PLC's
- GE Fanuc PLC's
- USDATA FactoryLink
- Citect SCADA™
- AMPLA (Schneider's Manufacturing Execution System)
- CitectHistorian (previously known as Citect Plant2Business and CitectSCADA Reports)
- Rockwell Software RS View & PanelView

Nb. CitectSCADA and CitectHistorian are either registered trademarks or trademarks of Schneider Electric (Australia) Pty Ltd in Australia and/or other countries.

Please contact Mr. Andrew Oates to discuss further where **PROVECTA** can provide value added solutions for your next PLC or SCADA system project.
